

NEW

Pro-Honer II

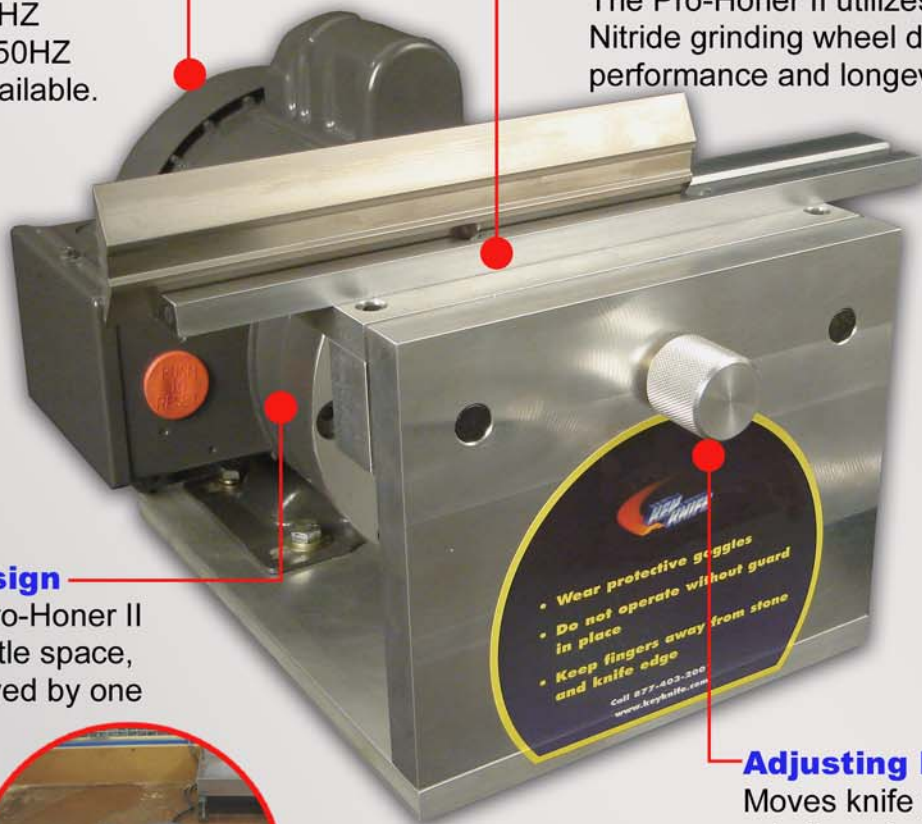

Key Knives can be resharpened on site, making Key Knife Systems even more economical to operate.

Motor

Heavy Duty TEFC, 1/2 HP 115V-60HZ Motor. A 220V-50HZ motor is also available.

Grinding Wheel

The Pro-Honer II utilizes a Cubic Boron Nitride grinding wheel due to its proven performance and longevity.

Compact Design

The compact Pro-Honer II takes up very little space, and can be moved by one person.
